Guidelines for Wholesaling, Distributing or Storing Cigarettes, Cigars and Tobacco Products in Texas

This bulletin provides information on the Texas laws applicable to non-retailers of cigarettes, cigars and tobacco products. The full text of these laws can be found in the Texas Tax Code, Chapters 154 and 155.

A person who intends to manufacture, import, wholesale, distribute or store cigarettes, cigars or tobacco products in Texas must first have a permit. Permit holders must comply with all provisions in Chapters 154 and 155 and all applicable Comptroller rules. To receive a permit, complete the Texas Application for Non-Retailer Cigarette, Cigar and/or Tobacco Products Permit (Form AP-175). If the person seeking the permit is anything other than a sole proprietorship, also complete a Texas Ownership Supplement for Cigarette, Cigar, and Tobacco Products Permit(s) (Form 69-209) and return it with the application.

The application and supplement form are available online, or you can call our office. Complete contact information is located at the end of this bulletin.

rette tax. Stamps are consecutively numbered and uniquely identifiable as Texas cigarette tax stamps.

TAX RATES

Cigarettes

For a conventional package of 20 cigarettes, the tax is \$1.41 per pack. For a package of 25 cigarettes, the tax is \$1.76 per pack.

Cigars

- one cent per 10 or fraction of 10 on cigars weighing three pounds or less per thousand;
- \$7.50 per thousand on cigars that weigh more than three pounds per thousand and sell at factory list price, exclusive of any trade discount, special discount or deal, for 3.3 cents or less each;
- \$11 per thousand on cigars that weigh more than three pounds per thousand and sell at factory list price, exclusive of any trade discount, special discount or deal, for more than 3.3 cents each; and contain no substantial amount of non-tobacco ingredients; and
- \$15 per thousand on cigars that weigh more than three pounds per thousand; sell at factory list price, exclusive of any trade discount, special discount or deal, for more than 3.3 cents each; and contain a substantial amount of non-tobacco ingredients.

Tobacco Products

Prior to Sept. 1, 2009, the tax rate for tobacco products (other than cigars) such as snuff, smoking and chewing tobacco was 40 percent of the manufacturer's list price, exclusive of any trade discount, special discount or deal.

Beginning on Sept. 1, 2009, the tax rate for tobacco products (other than cigars), such as chewing tobacco, pipe tobacco, snuff, roll-your-own tobacco and any article or product made of tobacco or a tobacco substitute (and that is not a cigarette) is based on the current state fiscal year. The rate applies to each ounce of net product weight and all fractional parts of an ounce. A tax rate in effect for a state fiscal year does not affect taxes imposed before that fiscal year, and the rate in effect when those taxes were imposed continues in effect

for purposes of the liability for and collection of those taxes. Following are the rates by state fiscal year.

Fiscal Year	Rate
2010 (Sept. 1, 2009 - Aug. 31, 2010)	\$1.10 per ounce*
2011 (Sept. 1, 2010 - Aug. 31, 2011)	\$1.13 per ounce*
2012 (Sept. 1, 2011 - Aug. 31, 2012)	\$1.16 per ounce*
2013 (Sept. 1, 2012 - Aug. 31, 2013)	\$1.19 per ounce*
2014 (Sept. 1, 2013 and each fiscal year thereafter)	\$1.22 per ounce*

**Plus the proportionate rate on all fractional parts of an ounce*

PERMITS – GENERAL PROVISIONS

Bonded agents, distributors, importers, manufacturers and wholesalers must apply for a permit for each type of activity in which they will be engaged. For example, if the same legal entity will be engaged in both manufacturing and distributing activities, the entity must submit separate applications for both activities. Permits are issued for each place of business and are not transferable or assignable. Any change to a legal entity's form of doing business or ownership of an existing business requires a new permit application. For example, if a partnership changes to a corporation, new permit applications must be submitted. Similarly, if a partnership consisting of two persons becomes a partnership consisting of three persons, new permit applications must be submitted. Each legal entity must have the same taxpayer number on all permit applications, even though each permit that is issued will have a different permit number.

Each non-retailer cigarette, cigar and/or tobacco products permit must be renewed every year and is valid from March 1 to the last day of February of the following year. The Comptroller's office sends renewal packets to taxpayers before the permit expiration date.

The Comptroller's office will prorate the fee for new permits based on the number of months remaining in the permit period. If a new permit will expire within three months after being issued, the taxpayer must pay the prorated fee for the current period, as well as the total permit fee for the following year.

**Together we can
stop minors from
buying tobacco.**

There is a \$50 penalty for each permit renewed after the due date.

Permits must be conspicuously and publicly displayed at each business location or on each vehicle.

Denial, Suspension or Revocation of a Permit

The Comptroller's office may, after notice and opportunity for a hearing, deny a permit application if (1) a business location is not adequate to protect cigarettes, tax stamps or tobacco products from such things as theft and fire; or (2) the applicant, managing employee, officer, director, stockholder having 10 percent or more ownership of the outstanding stock, or partner failed to disclose pertinent information or previously violated provisions of the cigarette tax or the cigars and tobacco products tax laws.

The Comptroller's office may, after notice and opportunity for a hearing, suspend or revoke a permit if the permit holder violates the cigarette tax or the cigars and tobacco products tax laws or administrative rules.

Penalty for Operating Without A Permit

A person who engages in the business of a bonded agent, distributor, importer, manufacturer, wholesaler or retailer without a valid permit is subject to a penalty of not more than \$2,000 for each violation. A separate offense is committed each day on which the violation occurs.

SALES

Except for retail sales to consumers, cigarettes, cigars and tobacco products may only be sold to or distributed by and between permit holders. A person who is not a permit holder cannot sell or distribute more than 200 individual cigarettes to any person and cannot sell or distribute tobacco products on which a tax of more than \$50 has been paid or is due.

AVAILABILITY OF RECORDS

All records required of all permit holders must be kept open for inspection for at least four years, and with respect to records related to a permit holder's claim, longer than four years during any period when tax, penalty or interest may be assessed, collected or refunded by the Comptroller or while an administrative hearing or judicial proceeding is pending. Permit holders are required to produce contemporaneous records and supporting documentation for transactions in question,

to enable verification of claims related to the amounts of tax, penalty or interest to be assessed, collected or refunded in an administrative hearing or judicial proceeding. A permit holder's records must be made available for inspection and copying upon request by the Comptroller's office or the Attorney General's Office.

BONDED AGENTS

A bonded agent must have a permit for each place of business owned or operated in Texas. The bonded-agent permit must be renewed every year and is valid from March 1 to the last day of February of the following year.

The annual fee for each permit is \$300 for each place of business.

- other records the Comptroller may require. Please read all inserts and notices sent with reports.

A distributor must have a permit for each place of business owned or operated in Texas and for each vehicle from which cigarettes or tobacco products will be sold.

The annual fee for a distributor permit is \$300 for each business location. The fee for each vehicle permit is \$15 when the applicant is also applying for or has received a permit as a distributor.

A distributor must affix the required tax stamp to each individual package of cigarettes that is intended to be sold, offered for sale, consumed, distributed, handled, or transported within 96 hours after receiving the cigarettes, excluding Saturdays, Sundays and legal holidays.

A manufacturer located outside of Texas must purchase tax stamps and affix the stamps to individual cigarette packages that the manufacturer uses for promotional purposes in Texas.

Each distributor must obtain the necessary stamps before receiving or accepting delivery of unstamped packages of cigarettes. The absence of a stamp on an individual package of cigarettes indicates the tax has not been paid. A distributor must pay for stamps in advance unless the distributor has satisfied all the requirements of the Cigarette Tax Recovery Trust Fund. Information about the fund is available in Comptroller's Publication 96-493. Chapter 154 of the Tax Code also provides information about the fund. Payment for stamps must be made by cashier's check or by electronic funds transfer, depending on the amount owed.
